ACTION PLAN FOR CHARACTERIZATION OF RESIDUE, TRU, AND TRU-MIXED WASTE - HPM-746-93

Please find attached the Action Plan for Inspection, Analysis, and Characterization of Residues, Transuranic (TRU) and TRU-Mixed Waste. This plan provides the actions and costs required to develop a detailed project plan for the subject characterization. It is in addition to the Action Plan for Characterization of Electrefining (ER) Salts previously submitted to you.

Efforts are underway to either identify funding from within existing resources or request added funding through a Change Control Action.

In any event a Change Control Action will be submitted by December 10, 1993, if required.
